**Trilo B7 blower**

## Trilo B7 blower

Trilo's new B 7 three point hitch blower is your best choice when it comes to blow leaves, litter, standing water and debris off sports grounds, fields, artificial turf, golf courses, urban and private greens and other areas. The hydraulic operated 180 degree reverse spout is standard equipped on the Trilo B7.

The impeller is statically and dynamically balanced to ensure a smooth and vibration free operation. The wide castor wheels and the anti scalp roller on the back to follow the contours from the surface.

### Features

- Light weight blower
- Compact blower with high capacity.
- With anti scalp roller and wide swivel castor wheels.
- For tractors from 30 HP.
- Standard equipped with 180 degree reverse spout
- PTO shaft with overrun clutch
